

AN INTRODUCTION TO

Dimensional Fund Advisors

Dimensional Fund Advisors is a leading global investment firm that has been translating academic research into practical investment solutions since 1981. Guided by a strong belief in markets, we work to implement compelling ideas in finance for the benefit of clients. An enduring philosophy, strong client commitment, and a strong connection with the academic community underpin our approach.

INVESTMENT PHILOSOPHY AND PROCESS

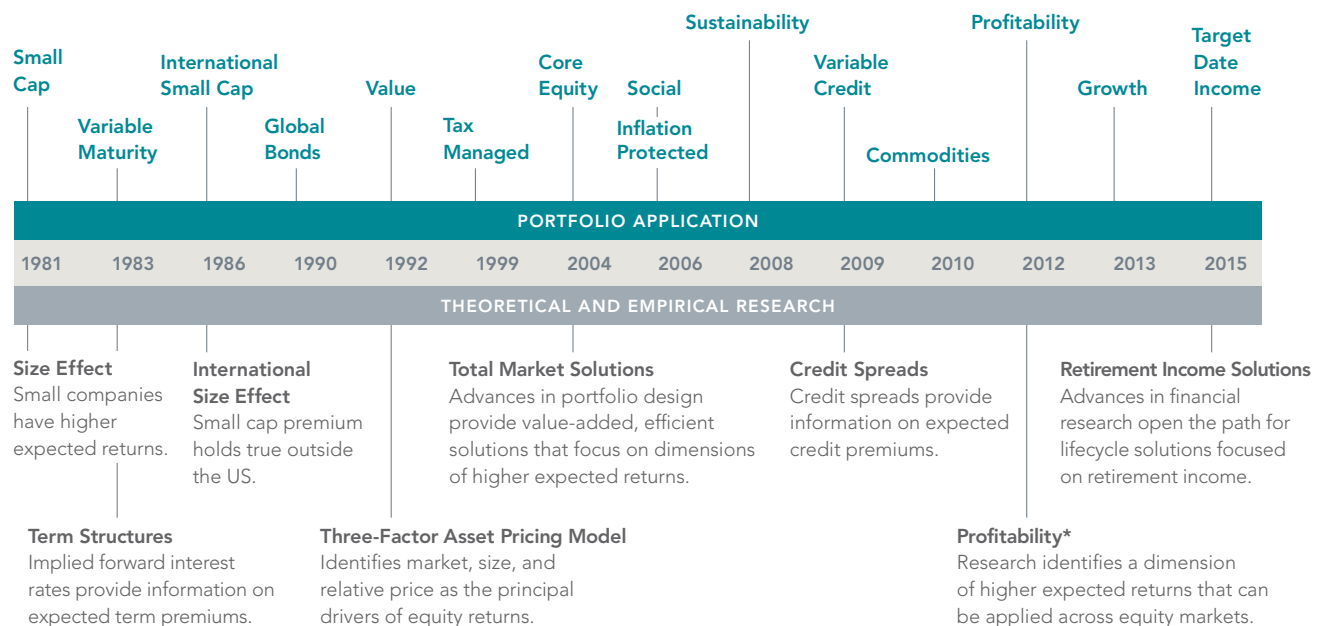

Our investment philosophy has been shaped by decades of research. We believe that security prices reflect all publicly available information as intense competition among market participants drives prices toward fair value.

We use the information in market prices, combined with fundamental data, to systematically identify differences in expected returns among securities.

We seek to add value by building portfolios that target higher expected returns in a cost-effective manner. Through a dynamic investment process that integrates research, portfolio design, portfolio management, and trading, we manage the tradeoffs that matter for performance—balancing competing premiums, diversification, and costs. This approach is applied consistently across a full suite of global and regional equity and fixed income strategies, allowing us to help meet the diverse needs of investors worldwide.

RESEARCH APPLIED

Since 1981, Dimensional has incorporated rigorous theoretical and empirical research on the capital markets into the design, management, and trading of our clients' portfolios.

Dimensional's portfolio management and trading desks are located across the US, Europe, and Asia Pacific, enabling us to cover global markets and manage strategies on a continual basis. Our global investment team applies the same philosophy, process, and systems across offices and regions.

RESEARCH-BASED SOLUTIONS

Dimensional has forged deep working relationships with leading financial economists—including Eugene Fama, Kenneth French, and Robert Merton—who work closely with our Portfolio Management, Trading, and Research teams, in addition to serving on our Investment Research Committee. The opportunity for vigorous exchange between our internal researchers and these lauded academics has allowed us to bring the ideas of financial science to life for investors.

A strong belief in markets frees us to think and act differently about investing. The longevity of our client relationships—many dating back decades—demonstrates our commitment to client service and the stability of our organization. By evolving with advances in financial science, Dimensional has delivered long-term results for investors.

DIMENSIONAL INVESTMENT STRATEGIES

Global assets under management (in US billions)
\$460 billion as of December 31, 2016
